FERNANDINA, FLA., Mch. 2, 1911

A GREAT OCCASION

The Fernandina Board of Trade deserve great credit for inducing the Brotherhood of Locomotive Engineers to choose this town as the place for entertaining their friends, the Order of Railway Conductors, at a big fish fry and barbecue, on the 13th day of May next, and too great honor cannot be given the special committee, who engineered the matter to a successful conclusion.

It would be difficult to name a matter more important and which will redound with more actual results to our city than the visit of this large number of most representative men. When it is taken into consideration that these people who will be our guests next May, hail from every section of this country, and are men of good standing in their own places of residence, it will require no great perception to readily see the vast advantage from an advertising standpoint that is bound to accrue from the visit of these organizations to our town.

Aside from its business and agricultural advantages, Fernandina is ideally located for a pleasure resort, situated as it is on Amelia Island, and having what is unquestionably the finest beach in the state, and which offers to the votaries of the rod and reel the best and most varied fishing anywhere. Nowhere on God's footstool was nature more lavish in her gifts than at this end of Amelia Island, where Fernandina is now situated. Here the climate is delightful, neither too hot nor too cold, being a blending of the temperate and the tropical zone; the healthful conditions are all that could be desired, which is largely due to the purity of the water and the cleanliness of the city; while as for scenery, the beautiful visions of river, marsh and sea ever delight the eye and defy the artist's brush to reproduce.

Yet we have had these many blessings and various advantages since the dawn of United States history, and with what result? Some excursion trains bring visitors from other parts of the state, and a few from Georgia, to this most naturally created resort in the south, yet the vast horde of tourists, who every season throng this state in search of health and pleasure, are not aware that our town is on the map, for Fernandina has never been properly advertised.

It is more than likely that the coming of this multitude of representative railroad men will change all this, for outside of drummers, the engineers and conductors of the wonderful railroad systems of this country have a greater circle of friends and acquaintances, daily visiting so many different towns as they do, than any other set of men; and it is hardly to be expected that they will fail to point in glowing colors the beauties of this place when they return to their homes. That they will speak well of us is a foregone conclusion, for no one ever visited this town who did not become infatuated with the place and the people. Our citizens will do everything possible both for their comfort and pleasure, and will give them a welcome such as only Fernandina can show.

Again we congratulate our Board of Trade for inducing these men of the rail to select this town as their place of enjoyment, and we prophesy that the ultimate results, which will accrue from their visit, will be more far reaching than our citizens now realize.

The News-Record in behalf of the people of Fernandina, assure the railroad men a hearty welcome.

Aeroplanes Will Be Police of the Sky.

Greatest Utility For Future Wars.

By HUDSON MAXIM, Inventor.

THE flying machine has come. And what are we going to do with it? There are three fields open for aviation—SPORT, WAR AND COMMERCIALISM.

Now, there are two ways to prepare for war. One is to prepare for it amply with FORTIFICATIONS, WARSHIPS AND AEROPLANES, and the other is to talk about disarmament and peace at any price.

There are two ways to prevent war. One is to turn the other cheek, and the other is to be so prepared that there is no need for hitting back. But the preparation for war is the CHEAPEST KIND OF INSURANCE.

IT IS MY BELIEF THAT THE GREATEST UTILITY OF THE FLYING MACHINE IS FOR WAR. IN THE NEXT GREAT WAR AVIATION IS GOING TO TAKE WAR INTO THE THIRD DIMENSION, AND WE'LL HAVE THE WHOLE CUBIC CONTENTS OF THE CELESTIAL DOMAIN TO PROTECT.

Victory in the future will depend on the POLICING OF THE SKY.

There will be but one way of meeting aviation, and that is by aviation. We must MEET THE FLYING MACHINE WITH FLYING MACHINES. In the event of war it will be our STRONGEST ARM.

We Need Women Police If Proper Protection Is Expected.

By Dr. ANNA HOWARD SHAW.

ONCE sent a suggestion to one of the reform mayors that he appoint ONE HUNDRED WOMEN POLICE in New York city.

We women are never afraid of making suggestions, and I told him just how it could be done. I told him to have them all Salvation Army women and to have Mrs. Booth pick out just the kind that could do the work.

NOT LONG AGO I SAW A MAN IN A CHICAGO COURT WHO IN ONE OF THE CHEAP MOVING PICTURE SHOWS THERE, IN THE COURSE OF THREE MONTHS, HAD TAKEN TWENTY-THREE YOUNG WOMEN AND LITTLE GIRLS AND SHIPPED THEM OFF TO TEXAS.

That thing could never happen if capable women, as the Salvation Army women would be, were acting as POLICE in cheap moving picture shows, cheap theaters and restaurants.

At the time I wrote to the reform mayor I asked for a hundred police women. Now I ask for a thousand in New York city and HUNDREDS OF THOUSANDS FOR THE OTHER CITIES AND TOWNS in the United States that need them.

You Are as Old as You And Your Friends Think You Are.

By Dr. L. L. NASCHER, New York Physician.

YOU ARE JUST AS OLD AS YOU AND YOUR FRIENDS THINK YOU ARE AND NO OLDER.

I am quite serious about it. Of course I do not mean that a man may succeed in walking upright into his grave simply because his friends tell him he'll never need a cane. But thousands of Americans are PREMATURELY AGED BECAUSE NOBODY ASSURES THEM THEY'RE YOUNG, because stooped shoulders and trembling knees are accepted with a chorus of sighs instead of being banished by a chorus of smiles.

Flatter an old fellow upon his youthful appearance and activity. Watch him straighten up under it. You may say the result is only momentary. But so is the stimulus. WITH A CONTINUED STIMULUS A LASTING RESULT MAY BE OBTAINED.

Old age is so often a purely psychic affair. Why should it not yield to psychic suggestion—FLATTERY, if you like? The moment a man is a grandfather, though he be but forty years of age, HE SUDDENLY FEELS OLD.

MANY MEN WHEN THEY ARE PLACED IN A RESPONSIBLE POSITION INVOLVING REALLY GREAT ISSUES LOSE THEIR FORMER BUOYANCY AND LIGHTNESS. IMPENDING DEATH, A SECRET FEAR, A GREAT LOSS, A SUDDEN FRIGHT, HAVE ALL PRODUCED SUDDEN AND PERMANENT AGING IN THE INDIVIDUAL. SO HAS ENFORCED SERIOUSNESS AND DIGNITY, SUCH AS MANY PROFESSIONAL MEN FEEL CALLED UPON TO ASSUME.
